- Typescript
- Agile

Experience

Intern | Typescript, ReactJS, NextJS, UI Libraries **Jul 2021 – Aug 2021**
Creole Studios **Ahmedabad, India**

- Designing frontend within object-oriented JavaScript frameworks like React JS.
- Use Third-party Animation Libraries like AOS and GSAP
- Learn how to integrate third-party APIs.
- Learn how to use Typescript with React.

Software Engineer | ReactTS, NextTS, Headless CMS, GraphQL **Sep 2021 – Oct 2023**
Creole Studios **Ahmedabad, India**

- Expand features, refine code, and improve processes, producing smoother operations and enhancing user engagement.
- Collaborated with team of web developers to create responsive website.
- Designed dynamic and browser compatible pages using HTML5, CSS3 and JavaScript.
- Ensure efficient web development by supporting designers and app developers while resolving website performance issues.
- Helping and Mentoring colleagues and open for Inputs.
- Efficient Client communication, Team Support and Maintenance.

Projects

TAGB RUNPARKING | ReactTS, ANTD, MOBX **Sep 2021 – Dec 2021**

- Conceptualized and deployed TagB Runparking, a comprehensive website for parking management system.
- Optimized user experience through intuitive design and seamless navigation.
- Developed backend functionalities for real-time data processing.

REAL ESTATE-LMS | ReactTS, Bootstrap, Redux-toolkit **JAN 2022 – OCT 2022**

- Led the development of Real Estate LMS, an exclusive learning platform for real estate brokers.
- Incorporated interactive features to foster engaging learning experiences.
- Established robust user authentication and access control mechanisms.

TIFFIN MOM | ReactTS, Material UI, Context API **NOV 2022 – DEC 2022**

- Pioneered the creation of Tiffin Mom, a dynamic tiffin service provider catering to both vegetarian and non-vegetarian clientele.
- Streamlined order processing system for efficiency and customer satisfaction.
- Implemented geolocation-based delivery tracking system.

RENT SMARTLY | ReactTS, GraphQL, ANTD, Redux-Saga **JAN 2023 – MAR 2023**

- Designed Rent Smartly, a rental spaces website akin to Airbnb, tailored for the Chinese clientele in Vancouver.
- Incorporated multilingual support and localized features to enhance user experience.
- Engineered advanced search and filtering options for tailored property recommendations.

OSWB (Membership Website) | ReactTS, BlueprintJS, Jotai **APR 2023 – JUN 2023**

- Unified OSWB Membership and Conference features into a single, cohesive platform.
- Seamlessly integrated membership registration, conference management, and payment processing for enhanced user experience.
- Enhanced user experience and engagement through consolidated functionalities.
